

**Simple
Installation**

**Strong,
Stable Grip**

GRBSAFE®

MAXIMIZE YOUR LADDER SAFETY

For those who work with ladders, falls continue to be one of the most common occupational hazards. Increase ladder safety at your operation with GrabSafe®. This ladder accessory improves stability by providing horizontal grab bars to the step-through portion of your fixed ladder. Large grab rungs provide a stable grip even with gloved hands.

IMPROVES LADDER SAFETY

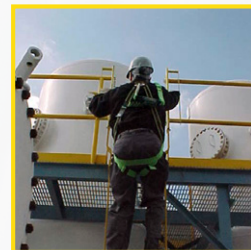

- Large grab rungs provide three-point control when ascending or descending
- Meets Army Corps of Engineers Reference – EM 385-1-1 (Appendix J)

SIMPLE INSTALLATION

- Bolts or welds onto fixed ladder
- Easily installs onto straight or flared ladder side rails
- Fits flat ladder railings up to 3" deep
- Includes all hardware for installation

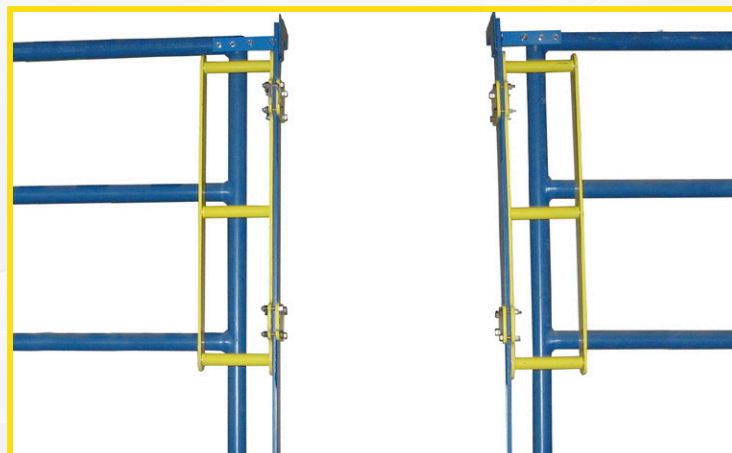

FINISHES

- Available in powder coat yellow or unfinished raw steel

Shown: GBS-CLMP-PCY
