## EDGEHALT® ADJUSTABLE SAFETY GATE (ASG)

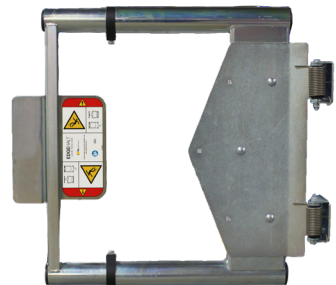

### A SINGLE GATE SIZE FOR OPENINGS 18" - 36"

Our self-closing EdgeHalt® Adjustable Safety Gate makes it easy to protect your team from the dangers of an elevated guardrail opening. This one gate is flexible enough to fit a large range of openings, reducing the need to measure every opening within your facility. Plus, it's stocked and ready to ship within three days!\*

- **One Gate Size** – Adjustable to fit openings from 18" to 36" (457mm – 914mm) and inverts to swing left or right.
- **Springs Guaranteed For Life Of Gate** – Tested to exceed more than one million cycles, you can feel good that the springs on your gate will likely outlast everything around them.
- **Slam-Proof® Technology** – A unique damping system provides safety to the operator while the gate is closing.
- **Code Compliant** – Tested to the OSHA, ANSI and Canadian COHS standards, exceeds the loading requirement by two times (OSHA 1910.29; OSHA 1910.28, ANSI A1264.1-2017; Canadian COHS SOR-86-304 Part II; ANSI A14.3) and is CE marked.
- **Easy Installation** – No sawing or cutting required.
- **Finishes** – Available in mild steel and safety yellow powder coat; zinc finish available for extra corrosion resistance.
- **Always In Place** – Self-closing to protect employees from dangerous falls.
- **Mounting Options** – Offered with standard railing mount (shown to the right) or with flat surface mount (shown below), which changes the gate range to 20.5" – 38.5" (521mm – 978mm).

Product Number: ASG-1836-PCY

Product Number: ASG-1836-ZINC
