

SAFETY PROTECTION STARTS HERE

A Safe Worker Is A Better Worker, And Our Products Prove It

Our PS Safety Access™ product offering is a complete line of safety and fall-protection products that help keep employees safe and increase material handling efficiency. Simply put, our safety products are built to ensure that users get to go home each and every night after their work is done. These gates, hatches and doors provide barriers against the everyday workplace dangers that can injure good personnel and hinder productivity.

LADDER FALL PROTECTION

EDGEHALT® Ladder Safety Gate (LSG)

EdgeHalt® Ladder Safety Gates are ANSI- and OSHA-compliant, self-closing swing gates that help reduce the chances of falls on elevated platforms, mezzanines and ladder ways.

Drill/Say Not Require

EDGEHAI

(ASG)

This one gate size is flexible enough to fit a large range of guardrail openings (18"-36"), reducing the need for precise measurements. Its guaranteed-for-life springs have been tested to withstand over three million cycles. It is CE Marked and meets OSHA, ANSI, Canada OHS and CSA guardrail standards to help protect workers from the dangers of elevated guardrail openings.

EDGEHAL

Paired Ladder Safety Gate (LSGDBL)

This self-closing swing gate provides 42" top- and mid-rail protection, minimizing the chance of a fall on elevated platforms, mezzanines or ladder ways. It's ideal for spaces where there is little room for standard swing gates.

Similar to our EdgeHalt Ladder Safety Gate, this full-height version is self-closing to ensure that protection is in place when it is needed most. The EdgeHalt Full Height Ladder Safety Gate provides a 42" top rail, mid-rail and 5" safety toeboard for increased personnel protection.

SAFETY GATE ACCESSORIES

LADDER SAFETY GATE STAND-OFF MOUNTING SYSTEM

(LSG-STNDOFF)

This system is an optional railing attachment that creates increased platform space on the mezzanine edge and provides a steadying point on the platform for personnel to utilize when transitioning through the Ladder Safety Gate.

LADDER SAFETY GATE ADAPTER BRACKET

Compatible with the EdgeHalt Single or Full Height Ladder Safety Gate, this adapter bracket is for customers with unique mounting needs.

FLAT BAR ADAPTER BRACKET (FB-2205)

ANGLE IRON ADAPTER BRACKET (AC-2206)

(514255)

(515083 A)

PAIRED LADDER SAFETY GATE FLAT SURFACE MOUNT KIT

This kit, compatible only with the EdgeHalt® Paired Ladder Safety Gate, is for mounting onto flat surfaces such as a wall, angle iron or flat bar.

LOCK-OUT KIT

The Lock-Out Kit is the perfect accessory for any standard EdgeHalt Ladder Safety Gate*. This kit allows for additional security to prevent unauthorized access to restricted areas, elevated platforms or mezzanines by locking the gate so that no one can pass through.

*Not compatible with our Paired Ladder Safety Gate.

ROOF HATCH SAFETY

HATCHGRIP® (HTG-PCG)

HatchGrip® provides ladder extension grips that extend beyond your hatch. These horizontal rungs ensure a firm, stable grip for employees exiting and entering a roof hatch, providing a safe and easy rooftop transition.

HATCH**SAFE**® (HSF)

HatchSafe is a full-perimeter self-closing railing system complete with integrated Ladder Safety Gate and HatchGrip® horizontal grab bars. This product provides permanent, four-sided protection designed specifically for your roof hatch opening, ensuring a safe, stable grip for employees entering and exiting the roof hatch.

TRAFFIC CONTROL & EQUIPMENT GUARDING

Cycle Tested

EDGESAFE®

Personnel Access Gate (EPAG)

Warn personnel about dangerous or off-limits areas with the EdgeSafe® Personnel Access Gate. This durable, floor-level gate swings bidirectionally (both ways) to allow pedestrians to enter or exit an access-restricted area. In addition, there is an 8.5" x 14" area to affix warning signage to the gate (not provided).

TRAFFIC CONTROL/EQUIPMENT GUARDING & MATERIAL HANDLING SOLUTIONS

EDGESAFE®

Smart Gate (ESG AND ESGDBL)

Improve employee and customer safety the smart way by utilizing the EdgeSafe Smart Gate in your facility. With flexible sizing to fit virtually any situation, this gate is ideal for a variety of applications, including machine guarding, equipment protection, ground-level traffic/pedestrian control, area perimeter protection, loading docks and so much more.

The Smart Gate lifts vertically 90 degrees (without pinch points), giving access to the restricted/protected area. Each gate is designed with a Lock-Out feature to prevent unauthorized access. Available in both Single (48" to 156") and Double (108" to 324") gate configurations - the Double gates, for example, are well suited for low headroom and wide areas.

Operation

FLEXIBLE

EDGESAFE®

Safety Railing

(ESR)

The incredibly customizable EdgeSafe Safety Railing serves as the foundation for a complete safety system in your facility. By utilizing a universal, omnidirectional bracket, this safety railing is flexible enough to address almost any application from the top of the mezzanine to the ground level (unlike a typical straight or 90-degree railing) and adaptable enough to follow virtually any required angle.

This safety railing system is sold in four components: 1-1/2" schedule 40 steel pipe as a horizontal railing (89" in length), vertical posts (3.5" each), railing brackets and a toeboard.

Simple Installation

MATERIAL HANDLING SOLUTIONS

PALLET RACK SAFETY GATE (PRG)

This safety gate is a self-closing gate system designed to fit existing rack systems. After palletized material is forklifted through the gate and the material conveys away from the opening, the spring-loaded gate self-closes along the racking edge.

MATERIAL HANDLING SOLUTIONS

SAFEMEZZ360[™] (SMZ)

SafeMezz360™ is the all-angles way to protect your team on the mezzanine. This ANSI- and OSHA-compliant fall-protection product creates a foolproof enclosed area that helps keep workers safe. Its slam-proof, cushioned dampening system keeps the gate from dropping on toes and prevents noisy slamming. Includes 5" safety toeboard. It's available in single or double pallet widths.

Smooth Gate Operation

CE Marked

SAFEMEZZ

Vertical Gate

(MGV)

Horizontal Gate

(MGH)

Improve material handling efficiency with our SafeMezz® Vertical Gate. Open the gate to forklift materials to your elevated space and close the gate to protect employees from dangerous workplace falls. Ideal for mezzanines with limited side room and deck space. Material handling is more efficient with our SafeMezz Horizontal Gate. Forklift materials to your elevated space and slide the gate closed to protect employees from dangerous workplace falls. This horizontal gate is ideal for mezzanines with limited headroom.

SAFEMEZZ

Downward Gate

(MGD)

Once installed on your mezzanine, this gate opens and closes as needed to improve material handling efficiency. The SafeMezz Downward Gate is ideal for buildings with limited side or headroom and is available with pneumatic/electric or pneumatic/ pneumatic operation.

Pallet Gate

(PLG)

Forklift your pallet of materials through this self-closing gate and back away. Our SafeMezz Pallet Gate closes up against your material, effectively protecting the mezzanine edge. These gates are available in two designs - one with a crossbar at the top that requires 80" in overall height and one without the top crossbar that is great for applications with height limitations or tall product pass through.
