EDGESAFE® SMART GATE

The Safest Way To Keep Things Moving In Your Warehouse

Improve employee and customer safety the smart way by utilizing the EdgeSafe® Smart Gate from PS Safety Access® in your facility. Customizable to fit your specific applications, our Smart Gate is ideal for a variety of applications, including:

- Loading docks
- Fall protection/railing openings
- Machine guarding
- Equipment protection
- Ground-level traffic/pedestrian control
- Aisle violator
- Area perimeter protection
- Pedestrian control where forklift traffic (or other machinery) is present
- Mezzanines*

**In applications where the product is positioned to protect a fall-edge, the person operating the product is required to implement another primary means of fall protection whenever the product is not closed.*

START IMPROVING YOUR FACILITY TODAY WITH THE EDGESAFE SMART GATE:

- **Safety That Pays** – The EdgeSafe Smart Gate keeps your team safe while keeping your facility running efficiently
- **Extended Configurations** – Available in both Single (48" to 156") and Double (108" to 324") gate configurations to accommodate a variety of applications and opening sizes ranging from typical to extra large; the Double is well-suited for low headroom and wide area
- **Flexible Sizing** – Gate systems adjustable to fit a variety of clear opening widths
- **Easy Operation** – Counterbalanced design makes it easy for one person to operate the gate smoothly with just one hand
- **Slam-Proof® Technology** – Features a unique damping system that provides safety to the operator while the gate is closing, controlling speed, reducing noise and adding life to the gate – all while being mounted high enough to prevent it from becoming damaged
- **Lifts Out Of The Way** – The gate lifts vertically 90 degrees (without pinch points) to ensure plenty of clearance
- **Built To Last** – Heavy-gauge steel and a powder coat yellow finish make it ideal for repetitive use
- **Ships Via FedEx Or UPS** – Once assembled, simply bolts to existing floor or concrete
- **Optional Toeboard** – Available for select gate sizes, an optional toeboard (sold separately) helps to increase edge protection from falling objects
- **Operator Push Button Add-On** – An optional push button feature (sold separately) adds an extra layer of protection when used on mezzanines and helps alleviate stress on personnel when utilized in high-use applications
- **Lock-Out Standard On All Gates** – Each model can be locked to prevent unauthorized access
